## MEMONEY

Memoney is a system that [allows money transfers between an ATM or bank entity and a terminal of a gaming machine](#), by means of a smartphone, using QR codes.

Allows you to [transfer money in different formats](#) such as cash, tickets, wallet cards, online accounts, banking... between you and the game terminal of the machine you are on. It is possible to make both [inputs and outputs of money](#).

A [Ticket In/Ticket Out](#) system, which allows the [collection and payment of prizes through tickets](#) at the corresponding ATMs, as well as the comfort of a Cashless system, through which cash payments are made through electronic and digital means.

Possibility of [checking the balance of your money anywhere](#), without having to be in person at the gaming venue or having to accumulate tickets or cards of any kind.

It does not require registration by the user, since the tool has a unique [number on their mobile and that only the change machine identifies](#). Although you have the option of a minimum account registration, if the user wishes to establish a [higher level of security](#), entering your name, email, and a 4-digit code that you must use it for every transaction you want to make.

For the service to work correctly, when entering the site, it will require that the mobile have the [location activated to identify its location](#) and relate it to the nearest salon or wherever you are.

The logo for 'memoney' is displayed in a lowercase, rounded, sans-serif font. The letters 'me' are a vibrant green, while the letters 'money' are a bright cyan. The 'y' has a long, curved tail that extends downwards and to the right.

### 1. Deposit from Bank

Deposit cash from a bank account or payment system.

When entering the [memoney.es](http://memoney.es) site, if the phone does not have this option activated, [the user will be asked to activate their location](#), where the system will automatically allow the user to confirm [the game room where he is](#).

Once the room is selected, the user will already [have the panel where they can start to operate](#). For this you must select the option “[Deposit from Bank](#)”, and then Select the amount you want to deposit.

1. Accede a [www.memoney.es](http://www.memoney.es) desde el navegador de tu teléfono inteligente
2. Selecciona el local de juego en el que te encuentras.
3. Pulsa en **Depósito desde banco**.
4. Indica la cantidad que deseas depositar en **memoney**.

Once the amount to be deposited has been selected, the user must [select the means of payment](#) by which he wishes to carry out the transaction. In this case you will have [by credit card or debit, and PayPal](#).

Once the payment method has been selected, you must complete the information corresponding to your account in the case of PayPal, or the card information in the case of selecting payment with debit or credit.

Once the data has been loaded according to the selected payment method, the money will be credited to the [memoney system](#) as “[current balance](#)”, so that you can enjoy whenever you like, and in the game you want.

Optionally and after making the first deposit, the user will be able to access to the “[My Account](#)” option, where you will only be asked for your [name, email, ID, and a 4-digit PIN](#), to increase the security of memoney and facilitate its use.

The image displays four sequential screenshots of the memoney mobile application interface for a bank deposit process.

- Screenshot 1:** Shows the 'Monto a Depositar' (Amount to Deposit) screen with a large '20 €' displayed. Below the amount, there are two buttons: a yellow 'PayPal' button and a dark grey 'Tarjeta de débito o crédito' (Debit or credit card) button. A small note below the card button says 'Desarrollado por PayPal'.
- Screenshot 2:** Shows the 'Monto a Depositar' screen with the 'Tarjeta de débito o crédito' button selected. Below it is a form for card details, including fields for 'Número de tarjeta' (Card number), 'Vencimiento' (Expiration date), 'CSC', 'Dirección de facturación' (Billing address) with a dropdown arrow, 'Nombre' (Name), 'Apellidos' (Surnames), and 'Código postal' (Postal code).
- Screenshot 3:** Shows the 'Saldo actual: 20,00 €' (Current balance: 20.00 €) screen. At the top, there is a notification: '¡Protege tu cuenta! Ingresar tu Nombre y Pin para mayor seguridad en Mi Cuenta'. Below the balance, there are four buttons: 'Depósito desde Banco' (Deposit from Bank), 'Devolución a Banco' (Return to Bank), 'Recarga o Cobro en Cajero' (Recharge or Cashier Payment), and 'Introducir en Terminal de Juego' (Insert in Game Terminal).
- Screenshot 4:** Shows the account information form. At the top, there is a notification: 'Escribe los nombres y apellidos de tu documento de identidad. Con tu Nombre y Pin podrás identificarte en el local.' Below this are input fields for 'Nombre \*', 'Pin \*', 'Email', and 'Dni'. A note below the fields says '\* Campos obligatorios' (Required fields). At the bottom, there is a green 'Guardar' (Save) button.

5. Selecciona el medio para realizar el depósito. Por ejemplo, PayPal o tarjeta bancaria.

6. Sigue las instrucciones que se muestran en la pantalla para efectuar el depósito. Por ejemplo, cumplimentar el formulario con los datos de la tarjeta bancaria.

7. Al finalizar el proceso, la cantidad seleccionada se muestra en tu saldo de memoney para que puedas disponer de ella como quieras.

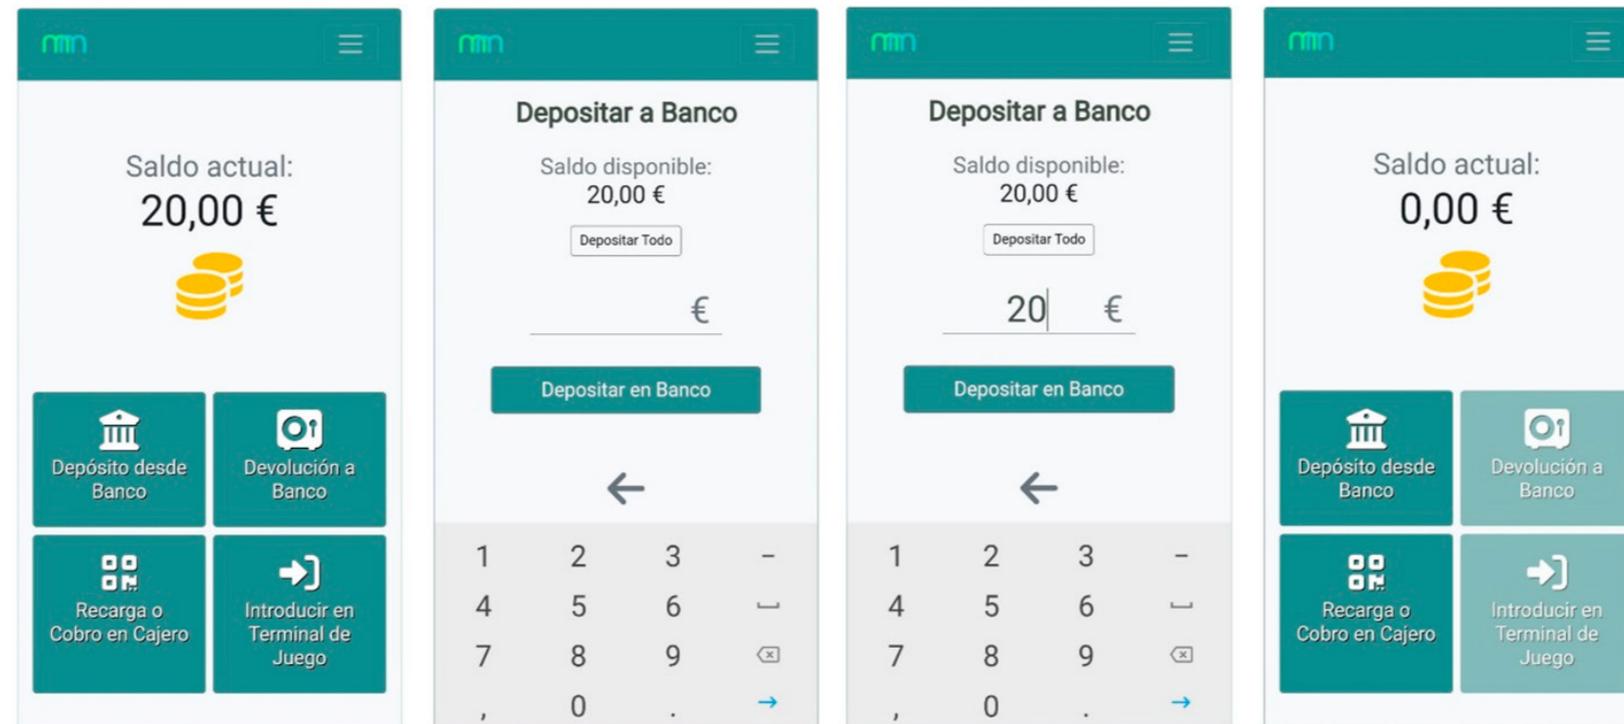

8. Si lo deseas, después de realizar un depósito, puedes crear una cuenta personal en memoney. Pula en el enlace [Mi cuenta](#) e introduce tus datos y un número pin para proteger tus operaciones y agilizar el uso de memoney.

## 2. Return to Bank

Return cash to a bank.

In the same way that we have carried out the previous steps to deposit money to our memoney account, we will do it to [return the money that we have in our account](#), but to the bank using the same method that we have selected at the time.

If in the first step the user has credited money to his memoney account by debit or credit card, when he wishes to transfer his money from memoney to his bank, the [system will return the money through the same system](#). In this case, debit or credit card.

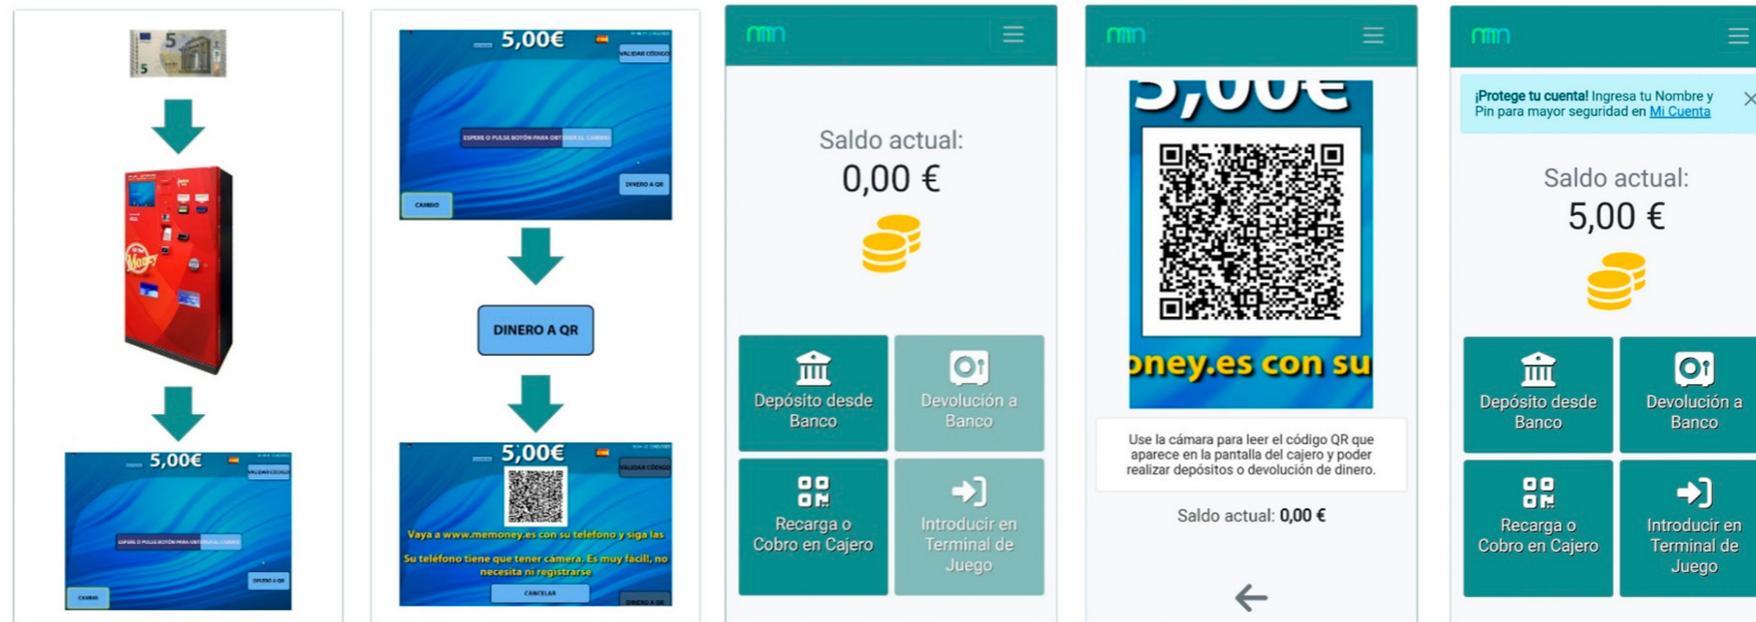

### 3. Recharge or charge at cashier

Top up or collect an amount in memoney through the ATMs available in the gambling venues

The user can introduce cash in the ATMs located in the rooms game, and transfer this cash to your memoney account.

For this, the user must introduce the metallic money in the ATM and once processed, they must select the option “Money to QR”.

A QR code will appear on the screen, which you must scan with your mobile phone, and once this step is done, the user will have the money they have deposited in the ATM, in your memoney account.

## 4. ATM payment

Collect an amount of money in memoney from an ATM.

In the same way that we have detailed in the previous case, the user will also have the possibility of transferring the money that you have in your memoney account to the cashier, to get the money back in cash.

By default, the ATM has a QR code on the screen with which it is identified. The user must scan this code and press the button on the ATM screen. "Charge". Select the amount you want to withdraw, the ATM will give you this money and the same selected amount will be deducted from your memoney account.

## 5. Insert money in a game terminal

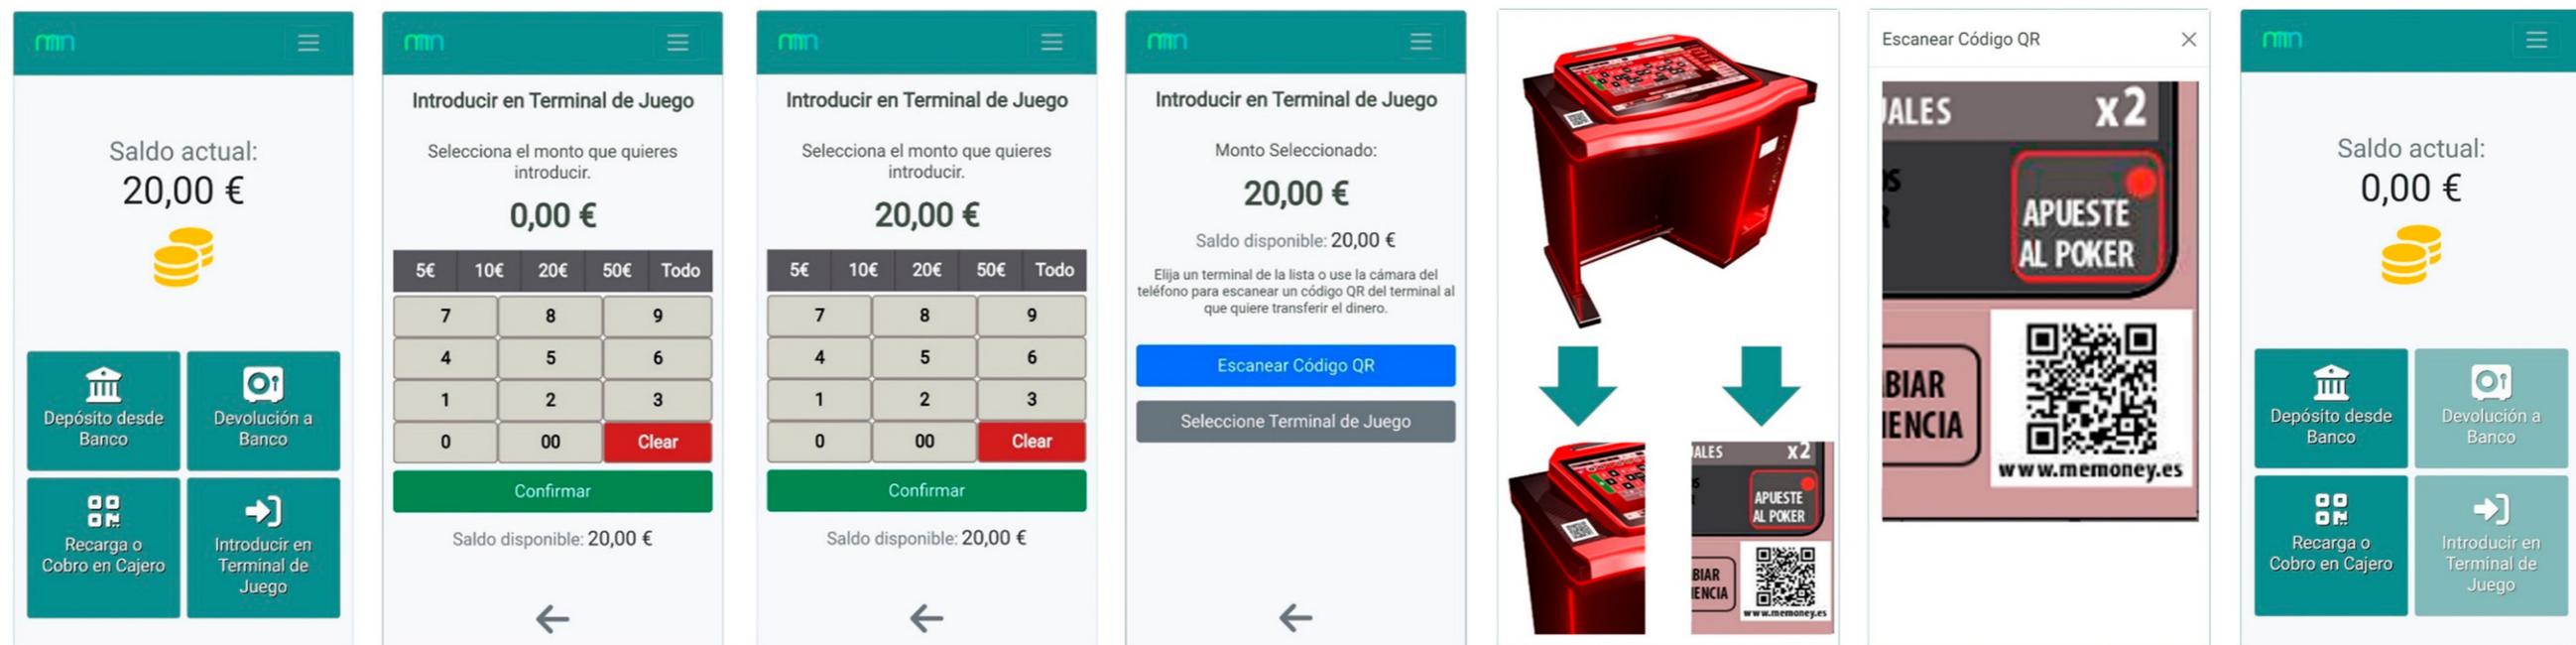

Insert money into a game terminal directly from memoney.

With a minimum amount in his memoney account, the user will be able to use your money to play in the terminals you want.

For this, you must press the “Enter in game terminal” button, select the amount you want to use for the game and confirm the operation by selecting manually the game terminal or

by scanning the respective QR code of the terminal that you will see in it.

Confirming the QR code scan of the terminal, the selected money will be transferred to the terminal to be able to enjoy the game.
